To: cta.wgrs24@sbrc.br, autores.wgrs24@sbrc.br

Cc: Diego Kreutz <diegokreutz@unipampa.edu.br>, tiago heinrich <theinrich@inf.ufpr.br>, Lourenco A Pereira <lourenco.junior@gp.ita.br>, "Muriel F. Franco" <mffranco@inf.ufrgs.br>

Caros(as) autores, avaliadores de artefatos, colaboradores externos e coordenadores do WGRS24,

Em primeiro lugar, gostaríamos de agradecer a oportunidade e a colaboração de todos! O engajamento de todos foi determinante para esta primeira edição do Comitê Técnico de Artefatos (CTA) do WGRS24! Muito obrigado!

Um agradecimento especial a todos os avaliadores que participaram ativamente do processo! Esta edição do CTA, cuja ideia teve início em 2023 no WTICG/SBSEg, serviu, mais uma vez, para gerar insights e ideias para a melhoria contínua do processo de submissão e avaliação de artefatos.

Em anexo, apresentamos as estatísticas gerais, as premiações, os ponteiros para as avaliações técnicas dos trabalhos com artefatos (sem a identificação do paper), entre outras informações referentes aos trabalhos do CTA. Caso algum autor queira as avaliações específicas do seu trabalho/artefato devidamente identificadas, por favor, entre em contato conosco.

Para além de simplesmente avaliar os trabalhos, o objetivo do CTA é fornecer feedbacks para os autores de forma a qualificar os artefatos (e.g., repositórios de dados e/ou software no GitHub). Temos a certeza que artefatos de qualidade são fundamentais para a ciência de qualidade, garantindo aspectos como funcionalidade, qualidade e reprodutibilidade, o que certamente contribuirá significativamente para toda a comunidade.

Para o CTA do SBSEg24 (<https://sbseg2024.ita.br/>), que será utilizado no Salão de Ferramentas (SF) e no Workshop de Trabalhos de Iniciação Científica e de Graduação (WTICG), elaboramos uma documentação e recomendações extensas sobre o processo para autores e avaliadores. Também iremos implementar, pela primeira vez, a utilização do HotCRP durante o processo, facilitando o contato e o feedback para os autores de cada trabalho submetido.

<https://sbseg2024.ita.br/autores/sugestoes-para-artefatos/>

Sugestões, ideias e comentários de todos são muito bem vindos!

Abraços,

Coordenadores do CTA do WGRS24

Diego Kreutz (UNIPAMPA)

Tiago Heinrich (UFPR/MPI)

Action Required

Office 365

michael.hernandez
Recipient

Unknown To address

How to Fix It

The address may be misspelled or may not exist. Try one or more of the following:

- Send the message again following these steps: In Outlook, open this non-delivery report (NDR) and choose **Send Again** from the Report ribbon. In Outlook on the web, select this NDR, then select the link "**To send this message again, click here.**" Then delete and retype the entire recipient address. If prompted with an Auto-Complete List suggestion don't select it. After typing the complete address, click **Send**.
- Contact the recipient (by phone, for example) to check that the address is correct.
- The recipient may have set up email forwarding to an incorrect address. Ask them to check that any forwarding they've set up is working correctly.
- Clear the recipient Auto-Complete List in Outlook or Outlook on the web by following the steps in this article: [Fix email delivery issues for error code 5.1.1 in Office 365](#), and then send the message again. Retype the entire recipient address before selecting **Send**.

Was this helpful? [Send feedback to Microsoft](#).

More Info for Email Admins

Status code 554 5.4.14

Typically this error occurs because the recipient email address is incorrect or doesn't exist at the destination domain. This can usually be fixed by the sender. However, sometimes the issue needs to be fixed by the recipient or the recipient's email admin. If the steps in the **How to Fix It** section above don't fix the problem, and you're the email admin for the recipient, try one or more of the following:

The email address exists and is correct - Confirm that the recipient address exists, is correct, and is accepting messages.

Synchronize your directories - If you have a hybrid environment and are using directory synchronization make sure the recipient's email address is synced correctly in both Office 365 and in your on-premises directory.

Errant forwarding rule - Check for forwarding rules that aren't behaving as expected. A forwarding rule can be configured by an admin via mail flow rules or mailbox forwarding address settings, or by the recipient via the Inbox Rules feature.

Mail flow settings and MX records are not correct - Misconfigured mail flow settings or MX records can cause this error. Check your Office 365 mail flow settings to make sure your domain and any mail flow connectors are set up correctly. Also, work with your domain registrar to make sure the MX records for your domain are configured correctly.

Mail loop detected - This error also indicates that the receiving organization's email settings are misconfigured, creating a mail loop when a message is sent to an address that isn't found in their directory. This usually won't disrupt mail flow for recipients that actually exist, but the recipient's email admin should fix the misconfiguration to reduce the chance of any other mail flow issues. A common cause for this loop is that the recipient's domain is configured as "Internal Relay" when it should be "Authoritative." Another common cause for the loop is that both the sender and recipient are part of the same organization, but the sender's mailbox is hosted by Office 365, while the recipient's mailbox is hosted on-premises, and an outbound connector from Office 365

to the on-premises email servers is missing or misconfigured. To fix this, the recipient's email admin should create a correctly configured outbound connector in Office 365 to route the message to the on-premises mailbox.

For more information and tips to fix this problem, see [Fix email delivery issues for error code 5.4.14 in Office 365](#).

Subject: [WGRS 2024] Resultados do Comitê Técnico de Artefatos
Caros(as) autores, avaliadores de artefatos, colaboradores externos e
coordenadores do WGRS24,

Em primeiro lugar, gostaríamos de agradecer a oportunidade e a
colaboração de todos! O engajamento de todos foi determinante para
esta primeira edição do Comitê Técnico de Artefatos (CTA) do WGRS24!
Muito obrigado!

Um agradecimento especial a todos os avaliadores que participaram
ativamente do processo! Esta edição do CTA, cuja ideia teve início em
2023 no WTICG/SBSeg, serviu, mais uma vez, para gerar insights e
ideias para a melhoria contínua do processo de submissão e avaliação
de artefatos.

Em anexo, apresentamos as estatísticas gerais, as premiações, os
ponteiros para as avaliações técnicas dos trabalhos com artefatos
(sem a identificação do paper), entre outras informações referentes
aos trabalhos do CTA. Caso algum autor queira as avaliações
específicas do seu trabalho/artefato devidamente identificadas, por
favor, entre em contato conosco.

Para além de simplesmente avaliar os trabalhos, o objetivo do CTA é
fornecer feedbacks para os autores de forma a qualificar os artefatos
(e.g., repositórios de dados e/ou software no GitHub). Temos a certeza
que artefatos de qualidade são fundamentais para a ciência de
qualidade, garantindo aspectos como funcionalidade, qualidade e
reprodutibilidade, o que certamente contribuirá significativamente
para toda a comunidade.

Para o CTA do SBSeg24 (<https://sbseg2024.ita.br/>), que será utilizado
no Salão de Ferramentas (SF) e no Workshop de Trabalhos de Iniciação

Científica e de Graduação (WTICG), elaboramos uma documentação e recomendações extensas sobre o processo para autores e avaliadores. Também iremos implementar, pela primeira vez, a utilização do HotCRP durante o processo, facilitando o contato e o feedback para os autores de cada trabalho submetido.

<https://sbseg2024.ita.br/autores/sugestoes-para-artefatos/>

Sugestões, ideias e comentários de todos são muito bem vindos!

Abraços,

Coordenadores do CTA do WGRS24
Diego Kreutz (UNIPAMPA)
Tiago Heinrich (UFPR/MPI)

Oi Jó,

Tudo bem?

Para seu conhecimento, em anexo os resultados do CTA do WGRS24. Uma coisa que percebemos foi a baixa qualidade da maioria dos artefatos que avaliamos no WGRS24.

Como está sua agenda para trocarmos uma primeira ideia sobre o Salão de Ferramentas do SBRC25?

Abraço,

Diego

buenas,

FYI.

no WGRS24 contatamos muitos artefatos de baixa qualidade. :-(só tivemos 2 trabalhos com outros artefatos atribuídos para além da disponibilidade. :-(

vou marcar uma call com o Jó para já irmos trocando algumas ideias para o SF do SBRC25.

abr

Opa,

Excelente cara, se precisar de algo do nosso lado basta avisar.

Muitas vezes estes workshops são mais ""flexíveis"" nas verificações, veja que coloquei entre 2 aspas duplas kkkk para não dizer outra coisa kkkkk

Nesta parte aí é vcs que mandam, então podem ficar a vontade para definir como vai ser :)

Abraços,

--

Roger

Mon, Jun 24, 2024 at 4:56 PM

buenas,

então, só que no WGRS24 os artefatos estavam bem pior que no WTICG23/SBSeg (trabalhos de graduação). kkkkkk essa "flexibilidade" parece estar grande no SBRC. hehehehehe

Acho que sim, tradicionalmente (até onde eu me lembro), existe bem pouco verificação de artefatos. Bora mudar isso!

Abraços,
